

PRE-QUALIFICATION

MEC

YOUR PARTNER TO BUILD

INTRODUCTION LETTER

We, **Masri Engineering & Contracting MEC SAL** would like to introduce ourselves as a first grade contracting company, ISO certified for ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007 and fully adhered to QHSE Management System.

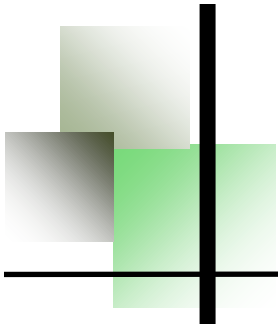

MEC has been established in Lebanon since 1982 and in the UAE since 2007 and became a well-known name in the Middle East construction companies and has constructed, completed, maintained considerable projects for more than three decades.

MEC is listed with most of the UAE organizations such as Ministry of Presidential Affairs (MOPA), Abu Dhabi Airports Company (ADAC), ADNOC, ESNAD, TAKREER, FERTIL, BOROUGE, TIP, TDIC, Al Ain Properties, Nakheel, Dubai South, Wasl, Jumeirah Gulf Estates and EMAAR Properties...etc.

MEC is glad to share its experience with you and hope the above will meet your interest and satisfaction.

Sincerely,

Masri Engineering & Contracting MEC SAL

Dear MASRI ENGINEERING & CONTRACTING,

Thank you for registering with Central Bank of U.A.E. Your registration reference no. is: **WR0001341**

Although the registration in our database is required for any bidding process, the registration does not guarantee you any business or tender opportunity from the Central Bank of the UAE.

Please note that the registration will not excuse you from submitting pre-qualification/capability documents for specific project tenders.

Regards,
Central Bank of the U.A.E.

محضر استلام نهائي

المشروع : مشروع المركز الوطني للأرصاد الجوية والزلازل ومكتب البعثات الدراسية
الإستشاري : أرتش دوم للإستشارات الهندسية
المقاول : مؤسسة مصري للهندسة والمقاولات
بالإشارة إلى طلب المقاول بإستلام المشروع المذكور أعلاه إستلاماً نهائياً والإفراج عن كفالة حسن التنفيذ، حيث أنه تم إستلام المشروع إستلاماً إبتدائياً بتاريخ (2015/03/16)، وتم الإنتهاء من أعمال الصيانة.

- قام مهندس الوزارة بزيارة المشروع بتاريخ (2016/09/27) حيث تبين قيام المقاول بصيانة قائمة النواقص خلال سنة الصيانة كاملة دون وجود أية ملاحظات تمنع من الاستلام النهائي والإفراج عن الكفالة، وتم التأكد بعدم وجود أي ملاحظات .

- عليه توصي إدارة المشاريع الهندسية والفنية بإستلام المشروع إستلاماً نهائياً من المقاول والإفراج عن كفالة حسن التنفيذ رقم (2013/6801) والمبالغ المحجوزة والمذكورة في محضر الإستلام الإبتدائي.

MEC QHSE Policy & Manual

IMS (QHSE) POLICY

We are engaged in "Contracting of Civil Works for Commercial and Residential Buildings" and are committed to-

- ✓ Strive for continual improvement by setting integrated management systems objectives, targets and regular performance monitoring with an emphasis on project quality, customer satisfaction, environment, health and safety compliance.
- ✓ Eliminate / mitigate significant HSE risks and impacts related to civil contracting works.
- ✓ Lead our employees to communicate, participate and work as a team to develop good working environment and business practices.
- ✓ Comply with all applicable statutory, regulatory and other applicable requirements.
- ✓ Serve internal and external parties by creating an environmental friendly and safe atmosphere with an emphasis on quality aspects.
- ✓ Committed to implement an effective system to prevent injury, ill health, environmental pollution and depletion of natural resources resulting from our activities.

Introduction

MEC has been established in Lebanon since 1982 and in UAE since 2007, became a well-known name in Middle East construction companies and has constructed, completed, maintained considerable projects for more than three decades.

MEC is listed with most of UAE Organizations such as Ministry of Presidential Affairs (MOPA), Abu Dhabi Airports Company (ADAC), ADNOC, ESNAD, TAKREER, FERTIL, BUROUGE, TIP, TDIC, Al Ain Properties, NAKHEEL, Dubai South, WASL and Jumeirah Golf Estates.. etc.

The company's strong leadership, experienced top management; along with the qualified personnel are the core driving forces for the success of the Company. MEC is proud of the achievements made in handing over high end projects on time and to the Clients' satisfactions and expectations. These achievements have made MEC to be one of the Leading Contracting companies in Lebanon and in UAE.

1.0 SCOPE

This manual covers all activities ranging from enquiry handling, handling tender invitation, tender / proposal submission, client order confirmation (Letter of Intent / Contracts / Project Award Letter), planning, project execution, quality assurance / quality control and project hand over in a safest and environmentally friendly manner within MEC.

The Integrated Management Systems Manual also describes the arrangements for process sequence and process interaction, employee competence, hazard identification, risk assessment, environmental aspects identification, impact assessment, risk / impact controls, communication, participation, consultation, legal requirements, emergency preparedness, incident investigation, the suitability of suppliers and the arrangements for preventing nonconformance, customer

- | | | |
|----|----------------------|---|
| 10 | Environmental aspect | – Element of an organization's activities or products or services that can interact with the environment. |
| 11 | Environmental impact | – Any change to the environment, whether adverse or beneficial, wholly or partially resulting from an organization's environmental aspects. |
| 12 | ERT | – Emergency Response Team & Employee Representatives. |
| 13 | External Provider | – Used for contract manufacturer, subcontractor, outsourced service provider and/or vendor |
| 14 | Hazard | – Hazard refers source or situation with a potential for harm in terms of human injury or ill health, damage to the workplace environment, or a combination of these. |
| 15 | IMS | – Integrated management systems (ISO 9001:2015 & OHSAS 18001:2007, ISO 14001:2015) |
| 16 | IMSM | – Integrated management systems manual |
| 17 | IMSP | – Integrated Management Systems Procedure |
| 18 | Incident – | – An event that gave rise to an accident or had the potential to lead to an accident. An incident where no ill health, injury, damage, or other loss occurs is also referred to as a “near-miss”. The term “incident” includes “near-misses”. |
| 19 | Interested Party | – Individual or group concerned with or affected by the quality, environmental, health & safety performance of MEC. |
| 20 | ISO | – International Organization for Standardization |
| 21 | MEC | – Masri Engineering & Contracting Est. |
| 22 | MR | – Management Representative |
| 23 | NC | – Nonconformity -non-fulfillment of a requirement. |

4.0 INTEGRATED MANAGEMENT SYSTEMS

4.1 Context of the Organization

MEC has determined the relevant external and internal issues related to Contracting of Civil Works for Commercial and Residential Buildings. This shall be monitored and reviewed by the top Management as and when required to achieve MEC's intended results of the integrated management system. The internal interested parties are top management & all staff. The external interested parties are local authorities, client / consultant, suppliers and service Providers. These issues may reflect direct concerns of the interested party or they may be indirect concerns. Such concerns may impact on the interested party, or may be concerns derived from the party that impact on MEC. Issues may be either internal or external, depending on whether the interested party is internal or external. When attempting to identify internal concerns, it may be useful to consider technological concerns, employee concerns, etc. When attempting to identify external concerns, it may be useful to consider concerns arising from competition, society and culture, labor relations, statutory and regulatory issues, supply chain, economic issues, etc. The internal issues identified at MEC are company values, culture, knowledge and performance. The external issues identified at MEC are legal compliance, new technologies, environment, market, social condition and economic condition. The issues are documented in the context of the organization (Annexure-A). Top management will then identify risks and opportunities related to the issues of concern identified in the risk and opportunity register (Annexure-B). Each risk and opportunity will be noted, along with the primary process involved, priority, and a bias. The "bias" identifies if the issue is a risk, an opportunity, or some blending of the two. Top management will then determine a treatment method for each risk or opportunity. Risks are managed to reduce their likelihood and consequence, while opportunities are managed to increase their likelihood and consequence. Blended issues may require more complex treatment.

		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

4.2. Needs & Expectations of interested parties

MEC has determine:

- the interested parties that are relevant to the integrated management system;
- the requirements of these interested parties that are relevant to the integrated management system.
- which of these needs and expectation become its compliance obligations.

The MEC shall monitor and review information about these interested parties and their relevant requirements through the implementation of integrated management systems procedure. The needs and expectations of the interested parties and the action plan by MEC are documented in the context of the organization (Annexure-A).

4.3 Scope of Integrated management system:

MEC has considered the following to define the scope of the integrated management system:

- External and internal issues;
- Requirements of relevant interested parties;
- Compliance obligations;
- Activities, products, services of MEC;
- Organizational units, functions and physical boundaries;
- Authority and ability to exercise control and influence.

Masri Engineering & Contracting Est

4.4 Process identification & Interaction

MEC has established and implemented the processes and the interactions required for the effective operations in line with ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007 standard and determined to maintain and continually improve the Integrated management systems. The processes have been determined and documented considering:

- The inputs required and the expected outputs from the processes;
- The sequence and interaction of the processes;
- The criteria and methods (including monitoring, measurements and related performance indicators) needed to ensure the effective operation of the processes;
- Ensuring the availability of resources required for the processes;
- Assignment of responsibilities and authorities;
- The risks and opportunities;
- Evaluation of processes for any changes required to ensure the achievement of end process results, Improvement of processes and IMS systems and Availability of Monitoring records to ensure the implementation status.

5. Leadership

5.1 Leadership & Commitment

5.1.1 General

The Top management of MEC has demonstrated leadership and commitment with respect to the Integrated management system through:

- Being accountable for the effectiveness of Integrated management system;
- Establishing IMS policy and IMS objectives for the IMS attuned with the context and strategic direction of the organization;
- Ensuring the integration of the IMS into MEC's business processes;
- Promoting the use of process approach and risk based thinking;
- Providing the resources required for IMS;
- Communicating the importance & Conformity to the IMS;
- Ensuring the achievement of IMS intended results;
- Engaging, directing and supporting persons to contribute towards the effectiveness of IMS;
- Promoting continual improvement;
- Supporting other management roles to demonstrate their leadership to the concerned areas of responsibility.

5.1.2 Customer focus

The contracts and projects team shall ensure that the customer and applicable statutory and regulatory requirements are determined, understood and consistently met. MEC shall ensure that the risks and opportunities affecting the conformity of products are determined and addressed to enhance and maintain customer satisfaction.

5.2 IMS Policy

The top management of MEC has established, documented, implemented and maintains an IMS policy (Annexure E) in line with the purpose, context and supporting the strategic direction of MEC. The Integrated objective is in line with its

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM

		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

policy to satisfy the applicable requirements and to ensure the continual improvement of the IMS of MEC. The policy of MEC has been applied, understood, communicated and be available for the interested parties.

Reference: Annexure – E

5.3 Organizational roles, responsibilities and authorities

Top management has assigned, communicated the responsibilities and authorities for relevant roles and is understood by them. This has been done to ensure that the IMS of MEC conforms to the requirements of the standard, achievement of intended output of the processes, reporting of the performance of IMS and opportunities for improvement to top management, promotion of customer focus in MEC and maintenance of the integrity of IMS throughout the planning and implementation of any changes in the processes.

Reference: Job Description

6 Planning

6.1 The Risks & Opportunities

The Integrated management system of MEC has defined in line with the context, needs and expectations of the interested parties and the risks and opportunities related to MEC's operations. MEC has identified the risks and opportunities and defined and it is addressed to ensure the achievement of the intended results of IMS, enhancement of desirable effects and to achieve continual improvement through reducing or preventing undesired effects including the potential for external environmental conditions to effect MEC. The risk and opportunities are reviewed on an annual basis by the process owners.

Reference: Risk & Opportunity Register - (Annexure – B)

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

6.1.2 Environmental Aspects, Hazard identification, Risk assessment and determining controls

MEC shall establish, implement and maintain a procedure for the ongoing hazard identification, risk assessment and determination of necessary controls. The results of identification of hazards, risk assessments and determined controls shall be recorded and maintained up to date.

HSE Manager is responsible for identifying and prioritizing the significant Environmental Aspects and Health & Safety risks associated with MEC's operations. This assessment shall be reviewed at least once per year as part of the objective setting activities. Additional reviews of the Environmental Aspects and Impacts, hazard & risk may be initiated as a result of a significant change to the organization structure, facility location or nature of product. MEC shall establish, implement and maintain procedures; to identify the Environmental Aspects and health & safety risk of its activities, products and services within the defined scope of the IMS and to determine those aspects & risk that has or can have significant impacts on the environment or significant risk on health and safety. MEC shall ensure that the significant environmental aspects and health & safety risks are taken into account in establishing, implementing and maintaining its IMS.

Reference: Procedure for HSE Risk / Impact Management (MEC/IMSP16)

6.1.3 Compliance Obligations

The HSE Manager maintains a liaison with all applicable outside agencies (including local authorities) and other interested parties regarding IMS, or legal requirements. These requirements shall be communicated as part of the objectives and targets.

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

MEC shall establish, implement and maintain procedure:

- To identify and have access to the applicable legal requirements and other requirements to which the organization subscribes related to its Quality, health and safety & environmental aspects and
- To determine how these requirements apply to its environmental impacts & health and safety hazards.

Reference: Procedure for Legal & Other Requirements (MEC/IMSP17)

6.1.4 Planning Action

MEC has planned actions to address the risk and opportunities, significant environmental aspects, health & safety risk and compliance obligations. MEC shall plan how to integrate and implement actions to address the risks and opportunities related to the IMS and evaluate the effectiveness of the actions. The effectiveness of the plan shall be reviewed at least once in six months. Actions taken to address risk and opportunities shall be proportionate to the potential impact on the conformity of products and services.

6.2 IMS Objectives

Integrated Objectives have been established for the enhancement of customer satisfaction considering applicable requirements at relevant functions, levels and processes within MEC. These objectives are established communicated and monitored in such a way that they are all measurable, consistent with the IMS policy and is relevant to the conformity of projects, products and services and are updated periodically.

Reference – IMS Objectives – Annexure - D

		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

6.3 Planning of Changes

Any changes determined to MEC's Integrated Management Systems will be carried out in a planned manner considering the purpose of changes and the potential consequences, integrity of IMS, availability of resources and allocation and re allocation of responsibilities and authorities. Any change to the MEC's IMS or processes shall be planned in a controlled manner to ensure continuity and integrity during changes. Management review shall be carried out before finalizing any changes.

7.0 Support

7.1 Resources

7.1.1 General

The GM is responsible for determining and providing the resources needed:

1. For the establishment, implementation, maintenance and continual improvement of the Integrated management systems by considering the capabilities of, and constraints on, existing internal resources and what needs to be obtained from external providers.

Reference - Procedure for Human Resource & Administration (MEC/IMSP6)

7.1.2 People

MEC has determined and provided the persons necessary for the effective implementation of IMS and the operation and control of the processes.

Reference - Procedure for Human Resource & Administration (MEC/IMSP6)

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

7.1.3 Infrastructure

MEC has determined, provided and maintains the necessary infrastructure for the operation of the processes to achieve the conformity of products and services.

7.1.4 Environment for the operation of processes

MEC has determined, provided and maintains the necessary environment for the operation of the processes to achieve the conformity of products and services. All social, psychological and physical factors of the environment in MEC shall be identified and controlled in line with the requirements.

7.1.5 Monitoring and Measuring resources

7.1.5.1 General

MEC has determined, provided the resources needed to ensure valid and reliable results when monitoring or measuring is used to verify the conformity of projects, products and services to requirements. MEC shall ensure the provided resources suitability for the specific type of monitoring and measurement activities being undertaken and are maintained to ensure their continuing fitness for the purpose. The certificates of conformity or consultant approval shall be maintained by MEC.

7.1.5.2 Measurement traceability

The HSE Manager and QA/QC Engineer are responsible for identifying the measuring equipment that are required to ensure the product conformity. The calibration required equipment shall be identified, safe guarded from adjustments, damage or deterioration that would invalidate the calibration status and subsequent measurement results and calibrated as per the requirements periodically.

Reference: Procedure for Calibration (MEC/IMSP14)

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

7.1.6 Organizational Knowledge

MEC has determined the knowledge necessary for the operation of its processes and to achieve conformity of products and services. This knowledge shall be maintained and made available to the extent necessary. MEC shall consider the current knowledge and determine how to acquire any necessary additional knowledge and updated when addressing changing needs and trends. The organizational knowledge shall be recorded in the nonconforming output register and snag list.

7.2 Competence

MEC has determined necessary competence of persons doing work under its control that affects the performance and effectiveness of IMS. MEC shall ensure that these persons are competent on the basis of appropriate education training or experience and take actions to acquire the necessary competence, and evaluate the actions taken and maintain the evidence of competence.

The necessary competence for personnel performing work affecting product quality are identified via job description.

Training needs shall be identified and provided as required, and the effectiveness of training evaluated to ensure that it is both effective and constructive.

7.3 Awareness

MEC shall ensure that all personnel of MEC shall be made aware of the relevance and importance of their activities and how they contribute to the effectiveness of the IMS including the benefits of improved performance, relevant Integrated objectives, Integrated policy and the implications of not conforming with the IMS requirements during initial induction and at all stages of training & development.

Reference - Procedure for Human Resource & Administration (MEC/IMSP6)

		Control Status	Master Copy
		Author	Deepu

7.4 Communication

MEC shall determine the internal and external communications relevant to the IMS including what shall be communicated, when to communicate, whom to communicate, how to communicate and who to communicate.

***Reference - Procedure for communication, participation & consultation
(MEC/IMSP19)***

7.5 Documented information

7.5.1 General

MEC's Integrated management system includes:

- a) Documented information required by this international standard
- b) Documented information determined by MEC as being necessary for the effectiveness of IMS.

7.5.2 Creating and updating

While creating and updating the documented information MEC shall ensure:

- a) Identification and description (title, date, author or reference number)
- b) Format (language, software version ,graphics) and media(paper, electronic).
- c) Review and approval for suitability and adequacy.

7.5.3 Control of documented information

Documented information required by the IMS and by the standard shall be controlled by MEC to ensure that it is available and suitable for use, where and when it is needed and it is adequately protected from loss of confidentiality, improper use or loss of integrity. For the control of documented information MEC shall address the following distribution, access, retrieval and use, storage and

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

preservation, including preservation of legibility, control of changes (version control) retention and disposition.

Documented information of external origin determined by MEC to be necessary for the planning and operation of the IMS shall be identified as appropriate and controlled. The documented information retained by MEC as evidence of conformity shall be protected from unintended alterations. The MR only have the authority to make the changes to the documented information.

Reference: Procedure for Documented Information (MEC/IMSP1)

8.0 Operation

8.1 Operational planning and control

MEC has planned, implemented and controls the processes needed to fulfill the requirements for the provision of projects and to implement the actions related to the planning process by

- determining the requirements for the projects, products and services,
- establishing operating criteria for the processes and the acceptance of projects, products and services
- determining the resources needed to achieve conformity to the project, product and service requirements
- implementing control of the processes in accordance with the operating and acceptance criteria
- determining ,maintaining and retaining documented information to the extent necessary to have confidence that the processes have been carried out as planned to demonstrate the conformity of products and services to their requirements.

MEC shall control planned changes and review the consequences of unintended changes, taking action to mitigate any adverse effects as necessary. MEC shall ensure that adequate controls are in place for the outsourced processes.

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

Consistent with a life cycle perspective, MEC shall:

- a) establish controls, as appropriate, to ensure that its HSE requirements are addressed in the design and development process for the product or service, considering each life cycle stage;
- b) determine its HSE requirements for the procurement of products and services, as appropriate;
- c) communicate its relevant HSE requirements to external providers, including contractors;
- d) consider the need to provide information about potential significant environmental impacts associated with the transportation or delivery, use, end-of-life treatment and final disposal of its products and services.

8.2 - A Requirements for products and services

8.2.1 Customer communication

MEC's customer communication includes

- a) providing information relating to the projects
- b) handling contracts and its review
- c) obtaining customer feedback relating to MEC services ,including customer complaints
- d) handling or controlling customer property
- e) establishing specific requirements for contingency actions, when relevant

8.2.2 Determining the requirements for products and services

MEC shall review all the requirements related to the projects, products and services to be offered to the customer prior to the commencement of execution. In the review it is ensured that:

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

- a) the requirements for products are defined, including, any applicable statutory and regulatory requirements those considered necessary by MEC
- b) MEC can meet the claims for the services it offers.

8.2.3 Review of the requirements for projects, products and services

MEC shall ensure that it has the ability to meet the requirements for products to be offered to the customer. MEC shall review before committing to supply products to the customer prior to include:

- a) requirements specified by the customer ,including the requirements for delivery and defect liability period activities;
- b) requirements not stated by the customer, but necessary for the specified or intended use, when known;
- c) requirements specified by MEC;
- d) statutory and regulatory requirements applicable to the projects, products and services;
- e) contract or order requirements differing from those previously expressed

MEC shall ensure that contract differing from those previously defined are resolved. The customer's requirements shall be confirmed by the MEC before acceptance, when the customer does not provide a documented statement of their requirements.

MEC shall retain documented information, as applicable:

- a) on the results of the review;
- b) on any new requirements for the projects, products and services.

8.2.4 Changes to requirements for projects, products and services

MEC shall ensure that relevant documented information is amended, and that relevant persons are made aware of the changed requirements, when the requirements for products and services are changed.

		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

8.2-b Emergency Preparedness

MEC shall establish, implement and maintain procedures to identify potential emergency situations and potential accidents. MEC shall respond to actual emergency situations and accidents prevent or mitigate associated adverse health & safety and environmental consequences. MEC shall periodically review and, where necessary, revise its emergency preparedness and response procedures, in particular, after the occurrence of accidents or emergency situations. MEC shall periodically review the effectiveness of such procedures where practicable.

Reference: Procedure for emergency preparedness and Response (MEC/IMSP13)

8.3 Design & Development:

MEC's projects have been carried out by the design which is provided by the customer / consultant. Since MEC does not involve in any designing activity, this clause is excluded from the scope of certification.

8.4 Control of externally provided processes, products and services

8.4.1 General

MEC shall ensure that externally provided processes, products and services conform to requirements. MEC shall determine the controls to be applied to externally provided processes, products and services when:

- products and services from external providers are intended for incorporation into the MEC's own products and services;
- products and services are provided directly to the customer by external providers on behalf of the MEC;
- a process, or part of a process, is provided by an external provider as a result of a decision by the MEC.

MEC shall determine and apply criteria for the evaluation, selection, monitoring of performance, and re-evaluation of external providers, based on their ability to provide processes or products and services in accordance with requirements. MEC

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

shall retain documented information of these activities and any necessary actions arising from the evaluations.

8.4.2 Type and extent of control

MEC shall ensure that externally provided processes, products and services do not adversely affect the MEC's ability to consistently deliver conforming products and services to its customers. MEC shall:

- a) ensure that externally provided processes remain within the control of its Integrated management system;
- b) define both the controls that it intends to apply to an external provider and those it intends to apply to the resulting output;
- c) take into consideration:
 - 1) the potential impact of the externally provided processes, products and services on the organization's ability to consistently meet customer and applicable statutory and regulatory requirements;
 - 2) the effectiveness of the controls applied by the external provider;
- d) determine the verification, or other activities, necessary to ensure that the externally provided processes, products and services meet requirements.

8.4.3 Information for external providers

MEC shall ensure the adequacy of requirements prior to their communication to the external provider. MEC shall communicate to external providers its requirements for:

- a) the processes, products and services to be provided;
- b) the approval of:
 - 1) products and services;
 - 2) methods, processes and equipment;
 - 3) the release of products and services;
- c) competence, including any required qualification of persons;
- d) the external providers' interactions with the MEC;

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

e) control and monitoring of the external providers' performance to be applied by MEC;

f) verification or validation activities that the MEC, or its customer, intends to perform at the external providers' premises.

Reference: Procedure for Purchase (MEC/IMSP9)

8.5 Production and Service Provision

8.5.1 Control of Production and Service provision

MEC shall implement production and service provision under controlled conditions. Controlled conditions shall include, as applicable:

a) the availability of documented information that defines:

- 1) the characteristics of the products to be produced or the activities to be performed;
 - 2) the results to be achieved;
- b) the availability and use of suitable monitoring and measuring resources;
- c) the implementation of monitoring and measurement activities at appropriate stages to verify that criteria for control of processes or outputs, and acceptance criteria for products and services, have been met;
- d) the use of suitable infrastructure and environment for the operation of processes;
- e) the appointment of competent persons, including any required qualification;
- f) the validation, and periodic re validation, of the ability to achieve planned results of the processes for production and service provision, where the resulting output cannot be verified by subsequent monitoring or measurement;
- g) the implementation of actions to prevent human error;
- h) the implementation of release, delivery and post-delivery activities.

Reference: Procedure for projects (MEC/IMSP10)

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

8.5.2 Identification and traceability

MEC shall use suitable means to identify outputs when it is necessary to ensure the conformity of projects, products and services. MEC shall identify the status of outputs with respect to monitoring and measurement requirements throughout projects and control the unique identification of the outputs when traceability is a requirement, and shall retain the documented information to enable traceability.

Reference: Procedure for Identification and Traceability (MEC/IMSP21)

8.5.3 Property belonging to customers or external providers.

MEC shall exercise care with property belonging to customers or external providers while it is under the MEC's control or being used by the MEC. MEC shall identify, verify, protect and safeguard customers' or external providers' property provided for use or incorporation into the products and services.

Reference: Procedure for Handling Property Belonging to Customers or External Providers (MEC/IMSP20)

8.5.4 Preservation

MEC shall preserve the outputs during production and service provision, to the extent necessary to ensure conformity to requirements.

Reference: Procedure for Inventory Management (MEC/IMSP12)

8.5.5 Post-delivery activities

MEC shall meet requirements for post-delivery activities associated with the projects. In determining the extent of post-delivery activities that are required, the MEC shall consider:

- a) statutory and regulatory requirements;

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

- b) the potential undesired consequences associated with its products and services;
- c) the nature, use and intended lifetime of its products and services;
- d) customer requirements;
- e) customer feedback.

8.5.6 Control of changes

MEC shall review and control changes for projects, to the extent necessary to ensure continuing conformity with requirements. MEC shall retain documented information describing the results of the review of changes, the person(s) authorizing the change, and any necessary actions arising from the review.

8.6 Release of products and services

MEC shall implement planned arrangements, at appropriate stages, to verify that the projects, product and service requirements have been met. The release of products and services to the customer shall not proceed until the planned arrangements have been satisfactorily completed, unless otherwise approved by a relevant authority and, as applicable, by the customer.

MEC shall retain documented information on the release of products and services. The documented information shall include:

- a) evidence of conformity with the acceptance criteria;
- b) traceability to the person(s) authorizing the release.

Refer: Procedure for Quality, Nonconformity & Corrective Action (MEC/IMSP4)

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

8.7 Control of nonconforming outputs

8.7.1 MEC shall ensure that outputs that do not conform to their requirements are identified and controlled to prevent their unintended use or delivery. MEC shall take appropriate action based on the nature of the nonconformity and its effect on the conformity of products and services. This shall also apply to nonconforming products and services detected after delivery of products, during or after the provision of services. MEC shall deal with nonconforming outputs in one or more of the following ways:

- a) correction;
- b) segregation, containment, return or suspension of provision of products and services;
- c) informing the customer;
- d) obtaining authorization for acceptance under concession.

Conformity to the requirements shall be verified when nonconforming outputs are corrected.

8.7.2 MEC shall retain documented information that:

- a) describes the nonconformity;
- b) describes the actions taken;
- c) describes any concessions obtained;
- d) identifies the authority deciding the action in respect of the nonconformity.

Refer: Procedure for Quality, Nonconformity & Corrective Action (MEC/IMSP4)

9.0 Performance Evaluation

9.1 Monitoring, measurement, analysis and evaluation

9.1.1 General

MEC shall determine:

- what needs to be monitored and measured;
- the methods for monitoring, measurement, analysis and evaluation needed to ensure valid results;
- when the monitoring and measuring shall be performed;
- when the results from monitoring and measurement shall be analyzed and evaluated.

MEC shall evaluate the performance and the effectiveness of the Integrated management system. MEC shall retain appropriate documented information as evidence of the results.

Reference: Procedure for Monitoring & Measurement of IMS (MEC/IMSP5)

9.1.2 Customer Satisfaction

MEC shall monitor customers' perceptions of the degree to which their needs and expectations have been fulfilled. MEC shall determine the methods for obtaining, monitoring and reviewing this information. Customer satisfaction shall be measured through customer feedback. Based on the feedback, corrective action shall be taken to satisfy the customer requirements. The Project Coordinator is responsible for conducting the customer satisfaction survey and record the details in customer feedback form upon completion of projects or at relevant stages.

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

9.1.3 Analysis and evaluation of compliance

MEC shall analyze and evaluate appropriate data and information arising from monitoring and measurement. The results of analysis shall be used to evaluate:

- a) conformity of products and services;
- b) the degree of customer satisfaction;
- c) the performance and effectiveness of the Integrated management system;
- d) if planning has been implemented effectively;
- e) the effectiveness of actions taken to address risks and opportunities;
- f) the performance of external providers;
- g) the need for improvements to the Integrated management system.

Reference: Procedure for Analysis & Evaluation (MEC/IMSP23)

MEC has established, implement and maintain procedure for periodically (6 Months) evaluating compliance with legal and other applicable requirements mentioned in the legal requirements & other requirements and results of periodic evaluations shall be maintained.

Reference: Procedure for Legal & Other Requirements (MEC/IMSP17)

9.2 Internal audit

MEC carries out regular and comprehensive internal management audits to ensure that management systems operation and performance is in accordance with the documented requirements. An audit Program shall be planned, taking into consideration the status and importance of the processes and areas to be audited, as well as the results of previous audits. The audit criteria, scope, frequency and methods are defined. Selection of auditors and conduct of audits shall ensure

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

objectivity and impartiality of the audit process. Auditors shall be selected in such a way that they should not audit their own work.

The responsibilities and requirements for planning and conducting audits, and for reporting results to relevant management and maintaining records shall be defined in a documented procedure. It is ensured that the correction and corrective actions are taken without undue delay to eliminate detected nonconformities and their causes. Follow-up activities are also taken for the verification of the actions taken and the reporting of verification results.

Reference: Procedure for Internal Audit (MEC/IMSP2)

9.3 Management review

Top management shall review the MEC's Integrated management system once in every year, to ensure its continuing suitability, adequacy, effectiveness and alignment with the strategic direction of MEC.

Reference: Procedure for Management Review (MEC/IMSP7)

10 Improvement

10.1 General

MEC shall determine and select opportunities for improvement and implement any necessary actions to meet customer requirements, enhance customer satisfaction and outcomes of integrated management systems.

These shall include:

- improving products and services to meet requirements as well as to address future needs and expectations;
- correcting, preventing or reducing undesired effects;
- improving the performance and effectiveness of the integrated management system.

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
		Revision No	03
		Release Date	15-11-2017
		Control Status	Master Copy
		Author	Deepu

10.2 Incident Investigation, Nonconformity and corrective action

10.2.1 When a QHSE nonconformity / incident occurs, including any arising from complaints, MEC shall:

- a) react to the nonconformity / incident and, as applicable:
 - 1) take action to control and correct it;
 - 2) deal with the consequences;
- b) evaluate the need for action to eliminate the cause of the nonconformity / incident, in order that it does not recur or occur elsewhere, by:
 - 1) reviewing and analyzing the nonconformity;
 - 2) determining the causes of the nonconformity / incident;
 - 3) determining if similar nonconformities / incidents exist, or could potentially occur;
- c) implement any action needed;
- d) review the effectiveness of any corrective action taken;
- e) update risks and opportunities determined during planning, if necessary;
- f) make changes to the Integrated management system, if necessary.

Corrective actions shall be appropriate to the effects of the nonconformities / incidents encountered.

10.2.2 MEC shall retain documented information as evidence of:

- a) the nature of the nonconformities / incidents and any subsequent actions taken;
- b) the results of any corrective action.

***Reference: Procedure for Incident Reporting, Non-Conformity, Corrective Action
(MEC/IMSP3) and Procedure for Quality, Nonconformity & Corrective Action
(MEC/IMSP4)***

10.3 Continual improvement

MEC shall continually improve the suitability, adequacy and effectiveness of the Integrated management system to enhance QHSE performance. MEC shall consider

	INTEGRATED MANAGEMENT SYSTEMS MANUAL (ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007)	Document ID	MEC/IMSM
