ABOUT US

ABOUT US

We, **Masri Engineering & Contracting MEC SAL** would like to introduce ourselves as a Special Grade Contracting Company, ISO certified for ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and fully adhered to QHSE Management System.

MEC has been established in Lebanon since 1982 and in the UAE since 2007 and became a well-known name in the Middle East construction companies and has constructed, completed and maintained considerable projects for more than four decades.

MEC is listed with most of the UAE organizations such as Presidential Court, Abu Dhabi Airports Company (ADAC), Abu Dhabi Ports Company (ADPC), ADNOC, ESNAD, TAKREER, FERTIL, BOROUGE, TIP, Al Ain Properties, Nakheel, Dubai South, Wasl, Jumeirah Gulf Estates and EMAAR Properties...etc.

MEC is glad to share its experience with you and hopes the above will meet your interest and satisfaction.

Sincerely,

Masri Engineering & Contracting MEC SAL

PROFILE HISTORY

PHILOSOPHY, MISSION, VISION

PROFILE HISTORY

With more than 40 years of experience in Lebanon, MEC branched out in 2007 opening branches both in Abu Dhabi and Dubai to cater to the expanding Gulf market. This expansion has resulted in providing further services while specializing in Infrastructure, Construction and Fit-Out Services.

MEC staff shares local and international experience that strengthens each project team allowing the highest of standards, quality and client satisfaction. Whether working on small, custom-built works, or a large scale project, our focus is on setting the standard for construction, maintenance and fit out services. Central to that is our commitment to consistency which helps us to deliver predictable outcomes for our customers, regardless of their building type, location or the sector in which they operate. That is why both International brands and local organizations trust us to deliver their spaces on time, on quality and on budget.

We have a strong commitment to client satisfaction. We work closely with our clients to ensure that their projects receive the attention they deserve. We need our clients and customers, so we go that extra mile to look after them.

“YOU IMAGINE, WE DELIVER”

PHILOSOPHY/ MISSION/ VISION

COMPANY PHILOSOPHY

At MEC we are committed to excellence. We are proud of our past success and we constantly Strive to improve.

Our Mission

At MEC, through the relentless experience and technical education, we strive to accomplish our projects as the best in the industry. MEC always wishes to be the best to all its stake holders through the highest quality of project management and execution.

Our Vision

An organization that be the preferred contractor to the owners, consultants and investors and comply the local and international standards by fulfilling the statutory and regulatory requirements. Execute the projects through the highly qualified, trained and skilled employees.

To Our Clients

We will offer excellent quality contracting services to our client by utilizing the best available technology and well trained man power from project conceptualization to project completion & maintenance. Our service will surpass their expectations and will set the bench mark for our competitors.

To Our Employees

We support the innovation and creativity of our staff. We believe that their success as individuals is the foundation of our success as a company. Therefore, we will uphold their welfare, nurture their talent, encourage their progress and preserve their health and well-being.

To The Environment

We will preserve the environment and our natural resources. We will use our knowledge and skills to reduce the pollution, eliminate hazardous practices and decrease wastage. We will utilize our resources wisely in hopes of a cleaner and greener future.

To the Community

We believe that our success should benefit the community and that our prosperity should aid the local economy. We will contribute to the development of our location and support its trade, integrate our business with its duties and support its initiatives.

CORE VALUES

At MEC, our core values provide the framework for our mission, vision, strategies, decisions and behavior. We believe that these principles are of paramount importance to the success of any business as they were, and continue to be behind ours. They are the standards by which we conduct our daily business and all our interactions.

HEALTH, SAFETY AND ENVIRONMENT

People are our most important asset. Hence, it is imperative to protect the health and safety of this great resource and protect the environment where they live and prosper.

QUALITY

We are continually striving for excellence; improving and achieving the highest standards in everything we do.

RESPONSIBILITY AND ACCOUNTABILITY

As a corporation and as individuals, we take full responsibility for what we do and hold ourselves fully accountable for our actions.

STRATEGY

MEC's goals and ambitions for the future are focused on continuous improvement, sustainable Growth and expansion. To realize these aspirations, our management has developed the company with the following guidelines:

- Embrace core values that encompass integrity, ethics and commitment, promoting a culture of value and trust.
- Stress adherence to local laws, rules and regulations and support our company's quality, health, safety and environmental policies.
- Adopt a clear pragmatic vision for the future of our company.
- Eliminate bureaucracy through a relaxed vertical communication policy.
- Encourage horizontal communication to enhance cross-functional collaboration.

- Promote an initiative/proactive approach throughout the company.
- Reward employees as individuals and as teams to build confidence, satisfaction and endorse Team work.
- Work with top-of-the-line, latest-technology, well maintained fleet of equipment.
- Hire only competent professionals and instate a generous training program.
- Continue to provide the best possible quality of service.
- Maintain highest possible percentage of repeat clients and onboard employees.
- Allocate adequate resources.
- Promote close working relationships with clients and among employees.
- Build a culture of professional trust between the organization and its employees.
- Earn a reasonable profit to facilitate sustainability, progress and growth.

OUR APPROACH

The following general guidelines outline the way we handle your project. Here is what we always strive to do:

- Develop a mutually beneficial partnership with you.
- Answer your questions and address your concerns in a spirit of positive collaboration.
- Listen to your needs and integrate those needs into the project.
- Assess your specific project requirements and translate those into our concept.
- Have our experienced professional project team's work closely with yours to satisfy your requirements.
- Allocate necessary resources to meet schedules and deadlines.
- Utilize our years of experience to foresee obstacles and offer you alternatives.
- Abide by all applicable statutory laws, regulations, work ethics and our own core values.

***“OUR REPUTATION BRINGS YOU TO US, OUR PERFORMANCE WILL
CONVINCE YOU TO COME BACK”***

WHY MEC CONTRACTING?

MEC has a successful track record working with successful local and international organizations that demand consistency in quality, service and value for money, regardless of where their project is located.

Our Clients include owners, developers and occupiers in all sectors. From the onset we strive to fully understand their objectives so that we provide the most effective route to success. We take a collaborative approach with our clients, consultants and trade contractors, ensuring that we are working as a team at all times. Open communication and close collaboration on our projects encourages shared innovation. As a result we have succeeded in saving many clients both time and money. In line with MEC's vision and values the company seeks out local suppliers that share our commitment to all stakeholders, the community and the environment and who proactively seek new technical and commercial solutions to ensure continual improvement.

We develop everyone in our company to do their jobs with confidence, from interns' right through to our most experienced people.

Our results come through a great team effort with each other, our supply chain and clients. We are as flexible and as careful as we possibly can be to minimize any disturbance to you.

RIGHT FIRST TIME

- We know that your demands will be high. We understand we are only as good as our last job. So we start afresh every day – working harder than ever to deliver the highest standards of quality, reliability and value that you expect. We work to consistent standards and procedures – checking and double checking to get everything right the first time

KNOWLEDGEABLE

- At MEC we have an in depth knowledge of the industrial, commercial and fit out sectors. We are well briefed in design processes, materials and current best practices. We keep abreast of ever changing legislation including Building Regulations, Environmental Legislation and Regional Regulations.

TRANSPARENT

- We always aim to start with the clearest possible understanding of what you need and want to achieve. Then we keep things as clear and open as we can, at every stage of the process. We react quickly to any problems, sort them out fast and resolve any issues amicably.

FLEXIBLE

- We are big enough to deliver on substantial projects while our management structure and philosophy enables us to remain very responsive to our client's requirements and needs. We recognize that specifications can change or unforeseen circumstances may result in necessary changes. We respond to situations like this effectively and do all we can to accommodate any client driven variations.

SAFETY

Safety is a value that is fundamental to our culture. MEC has earned an industry-leading record of achieving zero lost-time incidents on projects. Year after year, our zero accidents philosophy helps put our safety performance right at the top of the industry.

At MEC, we believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every project through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority – if it is not safe, do not do it. We also ask our subcontractors and partners to adopt our commitment to safety and health. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations.

Our dedication to safety helps keep workers safe and it also pays off for our customers. Their operating costs go down and productivity goes up because less time is lost to accidents. And our people go home to their families safely at the end of each day.

SERVICES

We specialize in contracting from A to Z, construction, maintenance, and fit out services.

CONTRACTING A – Z

MEC will work to make your vision a reality from the vision to the adding the final touches. MEC deals in the following sectors.

- Infrastructure
- Industrial
- Commercial
- Accommodations (Residential and Public)
- Leisure
- Mixed – Use

INFRASTRUCTURE

MEC is a leading integrator of complex, sophisticated and innovative infrastructure projects that improve national infrastructure and is an experienced provider of local and regional projects that help build lasting communities.

We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery - with the support of our national network of expertise and resources. MEC delivers a staff of highly-trained construction professionals, a wealth of knowledge and innovative solutions to

every project In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains. Finding a company that mitigates risk, takes proactive measures, rewards safety performance, routinely executes with no recordable or lost time incidents and minimizes environmental and social impact is critical when choosing a constructor. Using a robust pre-construction planning process, MEC employs numerous business execution tools including project cost management systems, planning and scheduling software, quantity-based progress and performance tracking, and integrated project management software.

MAINTENANCE

MEC is a leading integrator of a complex, sophisticated and innovative infrastructure projects that improve national infrastructure and is an experienced provider of local and regional projects that help build lasting communities. We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery with the support of our national network of expertise and resources. MEC Contracting delivers a staff of highly trained construction professionals, a wealth of knowledge and innovative solutions to every project in construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains.

Finding a company that mitigates risk, takes proactive measures, rewards safety performance, routinely executes with no recordable or lost time incidents and minimizes environmental and social impact is critical when choosing a constructor. OUR PROJECTS

OUR PROJECTS

MEC is a leading integrator of complex, sophisticated and innovative infrastructure projects that improve national infrastructure and is an experienced provider of local and regional projects that help build lasting communities.

We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery - with the support of our national network of expertise and resources. MEC Contracting delivers a staff of highly-trained construction professionals, a wealth of knowledge and innovative solutions to every project. In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains. Finding a company that mitigates risk, takes proactive measures, rewards safety performance, routinely executes with no recordable or lost time incidents and minimizes environmental and social impact is critical when choosing a constructor. Using a robust pre-construction planning process, MEC employs numerous business execution tools including project cost management systems, planning and scheduling software, quantity-based progress and performance tracking, and integrated project management software.

OUR MAJOR PROJECTS INCLUDES THE FOLLOWING:

❖ BUILDINGS & WAREHOUSES

MEC is a leading integrator of complex, sophisticated and innovative buildings and warehouse projects that contribute to the nation's development and is an experienced provider of local and regional projects that help build lasting communities. We offer a broad range of capabilities in construction, civil engineering and mechanical and electrical engineering services. With offices throughout the Gulf we offer locally-focused service delivery with the support of our national network of expertise and resources. MEC delivers a staff of highly trained construction professionals, a wealth of knowledge and innovative solutions to every project. In construction services, we are differentiated by the breadth, and depth of our expertise, together with local knowledge of the markets in which we operate and our close relations with supply chains.

❖ AIRPORTS

MEC has successfully completed a range of airport projects. In doing so, we have become recognized as one of the design and construction contractors in the Middle East. We have the ability to deliver projects ranging from major international terminals, runways and associated infrastructure to regional and military airports.

Our services now encompass design, development, construction and operation and maintenance. Airport infrastructure works are a core part of our business and our teams are experienced in providing the engineering skills and technologies necessary to deliver both airside and landside support facilities. Working closely with airport operators, owners, and carriers – as well as with the general public – we understand the need for maximum safety and security within ‘live’ environments. Utilizing our own batching plants and pavers to lay both asphalt and Pavement Quality Concrete (PQC), we work within tight time frames, minimizing lead times to reduce the impact of our works on customers and end users.

In every project location, we utilize the expertise of our dedicated and long established supply chain, working together to develop optimum solutions that provide best value and exceed customer expectations. Our projects are delivered through a variety of procurement routes including Design and Build, as consortium members and as international partners. In the last fifteen years, we have completed many airfield projects worldwide – including the development of new runways and taxiways, the improvement and upgrade of existing infrastructure and the provision of a range of support facilities.

❖ HEALTH CARE/ HOSPITALS

The healthcare business is ever-changing and has its own set of challenges and demands and at MEC, we understand these very basic needs of our healthcare clients. Being one of the experienced healthcare construction companies in UAE, we help you achieve your goals more efficiently and effectively. That’s precisely why we just don’t focus on erecting buildings in the name of constructing hospitals & healthcare departments. Rather, we go a step ahead towards designing and constructing hospitals that are truly capable of relieving the patients and improve their lives for the better.

Every day hundreds and thousands of patients are treated at a healthcare facility. Hence, it is impertinent that hospital authorities and owners construct highly sophisticated and state of the art hospitals for their patients. At MEC, we are willing to go past every hurdle to construct the ideal hospitals & healthcare facilities for our clients across the country.

Our clients regard us as one of the best hospital construction companies in the business, simply because we are highly reliable and easily dependable. Each day, we focus on developing hospitals that are world-class and feature best of the facilities. We construct modern hospital infrastructures featuring best of the facilities and amenities.

❖ FIT OUT WORKS

We change empty space into our client’s vision. Our teams have delivered tailor-made interiors for some of the world’s most successful and well-known organizations in their respective fields. Working with their consultants, or interpreting their vision to deliver a design and build the project, our collaborative approach has resulted in award-winning workplaces in the region. Our teams have experience working in occupied workplaces, allowing our clients to continue their daily activities, saving them both time and money. We are also used to working in multi-tenanted buildings and in close proximity to neighbors’, enforcing strict procedures to ensure their well-being and comfort at all times.

ON-GOING PROJECTS

No.	Project Name/Location	Description	Role in the Project	Client/Owner	Consultant	Scope of work	Contract Amount Incl. 5% VAT	Starting Date	Completion Date	Remarks
